

## Providing a Child Safe Environment

### POLICY STATEMENT

At Coowarra OOSH we commit to the safety and wellbeing of every child in our care. Please read our Statement of Commitment to Child Safety, which is available on our website Enter your organisation's website and is displayed at the service entry our children, young people, Educators, volunteers and students.

The United Nations Convention on the Rights of the Child (UNCRC) outline that children and young people have a right to be safe and cared for, no matter where they are or who they are with. Children have the right to be protected from violence, abuse or neglect. When working with children and young people, it is important to understand children's rights and needs.

We are advocates for children and have a strong commitment to child safety and establishing and maintaining a child safe environment. Children's safety and wellbeing are paramount at our service. service embeds the National Principles for Child Safe Organisations and promotes a culture of safety and wellbeing to minimise the risk of child abuse or harm to children whilst promoting children's sense of security and belonging. [NQF October 2023]

Under the Education and Care Services National Regulations the approved provider must ensure that policies and procedures are in place for providing a child safe environment and take reasonable steps to ensure those policies and procedures are followed. (Reg. 168, Reg.170). The National Law requires management to ensure all children being educated and cared for are adequately supervised and every reasonable precaution is taken to protect children from harm and any hazard likely to cause injury. Our focus is to build a child safe environment which is reflected in our Service policies and procedures and understood and practiced by all children and young people, educators, staff, families, volunteers and students.

feedback. We work individually with children and young people about the type of support they may require participating in the complaints procedure.

Management, educators, staff, volunteers and students will adhere to our Service's Code of Conduct Policy. Our Code of Conduct Policy clearly outlines expectations regarding behaviour and describes the principles, values, and ethical guidelines that guide our staff and stakeholders in their interactions and activities. All educators and staff members are made fully aware that following breaches of the Code of Conduct and role responsibilities may result in disciplinary action which may lead to termination of employment. Individuals can report any concerns they may have about inappropriate actions of any educator, staff, student or volunteer that involves children or young people to management, ensuring a prompt and thorough response to maintain a safe and secure environment for all.

We will:

### **RECRUITMENT (National Principle 5)**

Our service maintains a rigorous and consistent recruitment, screening and selection process to ensure the best staff members and educators are employed based on skills, qualifications, experience and suitability for the position available. All staff and educators participate in robust interviews and have reference checks completed to ensure the applicant's suitability to the role, previous experiences and their commitment to child safe values and practices.

All prospective applicants must declare that they do not hold any prohibition notices preventing them from working with children (Reg 188). ### **WORKING WITH CHILDREN CHECK- (National Principle 5)**

Working in conjunction with the Child Protection Act and National Regulations, the safety, welfare and wellbeing of children is paramount within our service and community. A Working with Children Check (WWCC) is a requirement for people who work in child-related work. It involves a national criminal history check and a review of findings of workplace misconduct. The result of a Working with Children Check is either a clearance to work with children and is valid for five years, or a bar against working with children. Cleared applicants are subject to ongoing monitoring and relevant new records may lead to the clearance being revoked.

Management is responsible for the periodic review and maintenance of up-to-date records of employees' Working with Children Check, including the Working with Children Check number and the date on which each clearance expires.

Once an employee provides their WWCC clearance, management will verify the clearance to ensure that it is valid and current. The WWCC will be placed in the individual's file and continue to be updated as required. Management will verify all student and volunteer WWCCs prior to placement. Any visitor who has direct contact

## Coowarra Out Of School Hours Care Service Inc

with children will be required to provide a WWCC for verification prior to coming into contact with children (*best practice*).

The approved provider will keep a record for each day a student or volunteer participates in the Service including date and hours of participation.

### **CHILD PROTECTION- REPORTABLE CONDUCT SCHEME (National Principle 6)**

Children and young people always have a right to be safe and protected. To comply with legislation and ensure a child safe environment, all educators, staff, volunteers and students are advised of current child protection law and understand any obligations under the law. Supervision is effective to ensure they understand that *child safety is everyone's responsibility*.

All management (with direct contact of children or young person), educators and staff are mandatory reporters and have a legal obligation to make reports if they suspect on reasonable grounds, a child is at risk of significant harm. Neglecting these obligations could potentially be deemed a criminal offence. All staff are provided with up-to-date training about child protection law and their obligations under this law and to ensure they are confident in following the reporting guidelines within NSW and adhere to our *Child Protection Policy*. (Reg. 84). Management will ensure training and development are provided for all educators, staff, and volunteers in child protection.

Through continual education and training, educators and staff are equipped with the knowledge, skills and awareness to keep children safe. Training gives educators and staff confidence to identify, respond and report child abuse.

Coordinators or responsible persons in day-to-day charge must complete a course in child protection approved by the regulatory authority. All staff must refresh their knowledge about mandatory reporting as required.

To protect children and young people and ensure their safety, welfare and wellbeing, management is legally required to report allegations or convictions of harm or risk of harm to a child or young person and child related misconduct by any staff member, educator, or volunteer.

Our service is committed to providing support to children, young people, families, educators or staff who have made a report regarding child protection, with a focus on upholding strict confidentiality throughout the process. Our primary concern is the well-being and safety of the child or young person, and we will work closely with relevant authorities, professionals, and support networks to ensure that the child or young person's best interests are met throughout the process. Our dedicated support system will assist educators and staff in navigating this challenging process while safeguarding their privacy and professional well-being.

### **CHILD PROTECTION- Allegations Against Employees (National Principle 6)**

To protect children and ensure their safety, welfare and wellbeing, management is responsive to report allegations or convictions of child abuse and child related

## Coowarra Out Of School Hours Care Service Inc

misconduct by any staff member or volunteer or contractor to the Office of the Children's Guardian (OCG) (NSW) as part of the *Reportable Conduct Scheme*. Our service will ensure an appropriate level of confidentiality of information relating to the reportable allegations as per the Children's Guardian Act 2019. We take our legislative responsibilities as part of the Reportable Conduct Scheme seriously and will respond to any reportable allegation or conviction against employees or volunteers that may arise.

### **REPORTING AND RESPONDING TO GENERAL COMPLAINTS (National Principle 6)**

Feedback from children, families, educators, staff and the wider community is fundamental in creating an evolving Childcare Service working towards the highest standard of care and education. We ensure educators, staff, volunteers and students are well informed about the different ways children may express concerns, distress and disclose harm as well as the process for responding to disclosures from children- including a complaint that alleges a child is exhibiting sexual behaviours that may be harmful to the child or another child. (ACECQA, 2023.)

We aim to investigate all complaints and grievances with a high standard of equity and fairness. Our service believes in procedural fairness and natural justice that govern the strategies and practices, which include:

- The right to be heard fairly
- The right to an unbiased decision made by an objective decision maker
- The right to have the decision based on relevant evidence.

### **PHYSICAL ENVIRONMENT- SUPERVISION AND SAFETY CHECKLISTS (National Principles 5 & 6)**

Children's safety is embedded in our day-to-day practices. We ensure effective and adequate supervision is provided to children and young people at all times, whilst ensuring educator to child ratios are met at all times. Educators will employ 'active supervision' strategies within the service environment and when participating in excursions or transporting children and young people. Consideration will be made for the different ages and abilities of children and the activities that may require different levels of supervision.

To ensure compliance with regulations, we will only include educators in the educator to child ratio who are working directly with the children and ensure a current roster and a sign on/sign off record are available to verify this. Staff rosters and routines ensure adequate supervision of children is always provided.

Through conducting risk assessments, we assess and manage risks in the physical environment collaborating with children to develop behaviour guidelines for play including adventurous play to ensure their safety. Educators have a sound understanding of their duty of care and responsibilities in ensuring a child safe environment.

Educators conduct regular safety checks to maintain basic standards of safety within our service. We believe that child safety is a shared responsibility at all levels within our service. Children and young people are encouraged to speak up about their

## Coowarra Out Of School Hours Care Service Inc

safety and the safety of their friends by telling an educator if they feel unsafe in a particular situation or environment.

Educators will complete daily checklists to assist and record inspections of the physical environment where foreseeable risks may be evident and cause harm or injury to a child:

Any findings that require attention will be either dealt with immediately or submitted into the maintenance book depending on priority. The approved provider/ nominated supervisors and Principals of primary schools must be notified of any areas that need immediate attention within the service.

### **RISK ASSESSMENT AND RISK ASSESSMENT TOOL (National Principle 8)**

It is a legislative requirement that management, staff and educators implement a risk management system where they identify and manage hazards and risks within the workplace to ensure a child safe environment. Strategies are in place to make sure child safety (through the National Principles for Child Safe Organisations) and Education and Care National Regulations are embedded across our Service. The key principles of risk management include:

1. Identifying all hazards or potential hazards in the service
2. Assess the risk of harm or potential harm for each hazard
3. Control or manage the risk – Risk Rating Matrix
4. Monitor and improve safety – Risk Assessment Action Plan
5. Evaluate and Review

It is the responsibility of coordinators or responsible persons in day-to-day charge to complete a risk assessment where children's safety may be jeopardised and when organising an excursion/incursion.

Children's safety must be incorporated into everyday practice within the service.

Common hazards which may require a risk assessment include:

- cross-infection and infectious disease
- administration of medication
- anaphylaxis procedures and management
- building and equipment (including storage)
- inadequate space for conducting activities and experiences
- hazardous chemicals
- electrical appliances
- food preparation and storage
- environmental influences such as shade, noise etc
- sun safety
- children's behaviours
- water safety
- fire equipment
- pets and/or animals
- inadequate supervision of children
- children's activities and experiences
- Work Health and Safety such as manual handling
- non-compliance risk

### **EMERGENCY AND EVACUATION PROCEDURES (National Principle 8)**

Management will ensure that copies of the emergency and evacuation floor plan is displayed in prominent positions near each exit of the service premises, including indoor and outdoor learning areas.

All staff and educators are familiar with emergency evacuation procedures and regulatory requirements.

Rehearsals for emergency and evacuation procedures, including lock downs, are conducted at least once every 3 months. Records will be kept for all rehearsals.

### **ARRIVAL AND DEPARTURE AUTHORISATION (National Principle 1 and 8)**

Our service prioritises children's safety at all times. Staff and educators will only release children to an authorised person as named on the child's enrolment form. Management will request families provide current court orders, and parenting plans to ensure our records are up to date.

National Regulations require our service to keep a record of children and visitor's arrival and departures, with the signatures of the person responsible for verifying the accuracy of the record and the identity of the person collecting the child or young person.

Educators will work in collaboration with our *Delivery of children to and Collection from Education and Care Premises Policy*, *Safe Arrival of Children Policy* and *Student, Volunteer and Visitors Policy* to promote a culture of child safety and wellbeing in the service.

To ensure children's safety, educators have a clear understanding of their legal obligation to check identification when a person is collecting a child. To maintain compliance, parents will notify in writing if they authorise a person who is not on their emergency contact form to pick up their child.

### **ONLINE SAFETY (National Principle 8)**

Our service is committed to create and maintain a safe online environment with support and collaboration with children, young people, educators, staff, families and community. Management ensures anti-virus and internet security systems are installed to block access to unsuitable web sites, newsgroups and chat rooms.

## Coowarra Out Of School Hours Care Service Inc

Our service ensures backups of important and confidential data is made regularly and either stored securely offline, or online. Software and devices are updated regularly to avoid any breach of confidential information.

Written authorisation is requested as part of the enrolment process for children to use computers/tablets; have their photo taken and published as part of promotional marketing or on the app program used by the Service. The identity of a child is not published on any platform.

Personal mobile phones or any personal electronic device are not used to take photos or video of children at the service. Only Service issued electronic devices are used and strict controls are in place to ensure the appropriate storage and retention of images and video of children as per the National Model Code and Guidelines. Only educational software programs and apps that have appropriate content and have been examined prior to allowing their use are used in the Service. Children are always supervised using any technology.

### **STORAGE OF HAZARDOUS SUBSTANCES (National Principle 8)**

We reduce the risk of harm to children and educators by using eco-friendly products. Our service will endeavour to provide a safe environment where necessary chemical and hazardous equipment are safely stored away from children and handled appropriately.

Management, staff and educators will keep a register of hazardous chemicals used within the service, including Safety Data Sheets (SDS).

### **EQUIPMENT, FURNITURE & MAINTENANCE RECORD (National Principle 8)**

There are several factors that can contribute to a hazard, such as a deprived program, insufficient supervision and dilapidated equipment. To ensure a child safe environment free from hazards, our service has implemented practices and continue to monitor Service policies and procedures that uphold Australian Safety Standards.

The venue of our service, and all equipment and furniture used within the service are audited to ensure all aspects are safe, clean and in good repair. We understand that hazards are specific to developmental stages of children. Educators are aware that toys and equipment need to be checked to ensure they are safe and developmentally appropriate for school aged children from Kindergarten to Year 6. Regular checks occur within the service to ensure that all toys, furniture and equipment are in good condition and working order.

### **CONTINUOUS REVIEW (National Principle 9)**

To ensure we maintain a culture of continuous improvement, we will ensure our child safe practices are regularly reviewed, evaluated and improved. We aim to ensure all educators, staff, students and volunteers understand and effectively implement our policies and procedures to provide a child safe environment at our service.

We will regularly review and monitor the effectiveness of our child safe policies and procedures and invite children, staff members, families and communities to contribute to their development. Any updates or revisions will be communicated to all stakeholders.
